About me

I'm a web, cross-platform, and robotics developer.
+2 years building apps with Java, ReactJS, MySQL and TailwindCSS.
+1 year with NextJS, AI programming in Python, and electronics.
I enjoy continuing to learn, creating new projects, and bringing my ideas to life.

Experience

03/2023-06/2023 React developer

- Developing NextJS and React components.
- TypeScript.
- Styling and theming responsive user interfaces with Chakra UI.
- Code quality.
- Git and Scrum.

Aktios S.L

Projects

01/2025 - 02/2025 My portfolio <https://pepercfoundry.web.app/>

Website where you can see my projects and all of the skills listed here in a more visible and interactive format.
